Publishing options: Poland institute affiliated corresponding authors

Key information

1. How do we determine eligibility of the article for the Poland agreement?

- The submission date of the article should be on or after 1st January 2019 for a discount of 30% and 1st January 2020 for 20% discount on the APC
- The corresponding author must be from a participating Polish institute
- The article must be from a participating journal

2. Why do we use submission date as the eligibility criteria?

- The submission date is the only stable point in the publishing process. Acceptance and publication dates vary based on the journal processes
- The author controls the submission date. This gives the author not only control, but also transparency and predictability, regardless of how long the review and publication process takes

Key information

3. Role of the institutional librarian in the Elsevier OA Platform (EOAP)

- By the time the article in is your EOAP, we have published the first version of the article in ScienceDirect (within 48 hours of acceptance)
- You therefore are not approving the publication of the article, you are validating whether the corresponding author can make use of the APC fund as part of the agreement

Corresponding author selects his/her affiliation details which we use to identify the authors and match them to the Poland agreement
